Active Vehicle Cradle

Honeywell CT30 XP

with CT30P-PB-XP Protective Boot

The Carcomm Active Vehicle Cradle is the perfect solution to integrate and use your Honeywell CT30 XP Handheld Computer with CT30P-PB-XP Protective Boot in your vehicle.
The unique and patented robust design of the active vehicle cradle keeps your handheld device in place.

Attached to the cradle is a 100mm cable with 6-Pin Molex Connector. Standard included is a a 1,2m power cable with cigarette plug lighter. An power cable for fixed installation is available as an option.

The 3,5A automotive grade charging circuit, suitable for 12V and 24V, which charges your handheld device, is integrated inside the vehicle cradle. The charger is specially developed for professional daily use where reliability and quality are essential. The charger keeps your device charged and ready for use in- and outside your vehicle.

The cradle is developed to ensure that the handheld device is kept in place but is still easy to remove. This is achieved with special fixtures that keep the handheld device firmly seated on the cradle connector while driving on bumpy roads. This also protects the handheld device connector and cradle connector from being damaged.

The perfect solution for the professional user, who wants to integrate his handheld device is his car, van, truck, bus or forklift.

Key Features

- 3,5A charger integrated inside the vehicle cradle
